Preface

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

MODERN EFFICIENCY

which fact is being more vividly demonstrated every day; for there are thousands of City Directories in use now, where there were to be found comparatively very few only a very short period ago.

The business world has awakened to the realization of this need; and there are few towns of any consequence that do not today have a City Directory. Just how up-to-date or complete a Directory is, depends in most cases upon the support accorded to the publishers; provided, of course, that the publisher is reliable. Only well-known, reliable and experienced directory publishers should be given support. The fly-by-night or unreliable publisher has done much to hurt the directory business.

It is an old saying that you can judge a man by the clothes he wears—whether this be true or not matters little; we all know that it is generally done; often no doubt to the disadvantage of someone. Just as much as man is judged by his clothes, just so much is the business life and activities of a town or community judged by its Directory; because the Directory is the most complete and the only recognized standard book of reference regarding the citizens of a community, their address, occupation or kind of business in which they are engaged. When you consult a Directory of a town, you can easily determine if it is up to standard, and if you find it to be well patronized, you need not be told that it belonged to a live community—the fact is self-evident. The Directory is the Catalog of your City.

It is with pleasure that we present Vol. VII of the CONCORD, N. C., CITY DIRECTORY, for the fact is self evident that we are doing business in a live community.

Boost Your City

ADVERTISING PAYS

When you advertise in the directory you advertise your city as well.

This Directory is placed in libraries and with commercial organizations in various cities thruout the United States.

The City Directory is a complete index to your city and tells the story of its progress.

If your business is not listed as it should be, you are missing a golden opportunity, not only to increase your business but to promote the growth of your city as well.

The possibilities of the City Directory cannot be properly told in words.

The classification by business will be found after the alphabetical arrangement of names. For full indices to the contents of the work, see index.

(*) A star (*) is often used in most directories for various purposes. A star (*) or hand (☞) is used in the Business Department of a directory to denote a special classification or listing; sometimes in the Street Department, in front or after a number, to denote a business place; it may be used, at the option of the publisher, to denote a married or single person; it is most generally used before or after a name to denote a colored person. Its use, however, being so general, the Publishers will not assume any responsibility for error or its wrong use.

**CITY
DIRECTORY**

**The First Place
the Buying Public
Goes!**

Why the City Directory first? It saves time. The ads are classified. Your customers find you instantly. It's the logical place for them to go because its an index to the city.

The illustration shows a large sign on the left with the words 'CITY DIRECTORY' written vertically. To the right of the sign, a diverse crowd of people in early 20th-century attire is walking towards the right. The scene is framed by a thick black border.

Classified Business Directory OF Concord, North Carolina

VOL. VII.

THE PIEDMONT SERIES

1929-1930

NOTE—Patronize those whose names are in large type, for they are the progressive ones and generally the leaders in their line.

Index appears in front of special business headings only, for which an extra charge is made.

NOTE—*Purpose of star (*) in front of name is generally used to denote colored person or firm. In the Business Dept. it may denote a special business classification, but its use is so varied that we assume no responsibility for errors.

BUSINESS PLACES

VOL. VII.

THE PIEDMONT SERIES

1929-1930

NOTE:—Streets numerically named are to be found after those arranged alphabetically. All house numbers are arranged numerically following the description and location of each street, giving the name of householder.

Dash (—) before name denotes that number is wanting.

NOTE:—*Purpose of star (*) in front of name is generally used to denote colored person or firm, but its use is so varied that we assume no responsibility for errors or the wrong use of the *.

YOU SIGN

Written contracts create mutual obligations. One of the cornerstones of modern commerce is the Contract of Purchase. Written contracts have found their way into human and business relations because their use serves to lessen and to prevent misunderstandings between parties to an agreement.

The purchaser owes it to his pocketbook and his conscience to give **SPECIAL ATTENTION** to that part of the contract which tells him what he is to get, what he is to pay and when.

Don't sign a contract with your eyes shut. Don't take a salesman's word for everything. Occasionally an employer may make a mistake in the selection of salespersons. That seems to be inevitable in all types of business.

But it lies with the customer whether such a handicap to mutual understanding is to be slight or serious. A salesman may convey misunderstanding through zeal or carelessness or even by intent, but the contract, if the customer will read it, will usually clear up such divergencies, there it is set down in black and white to prevent misunderstandings.

When a signature appears on a legal contract it is a foregone conclusion that the signer is indicating his or her honorable intention of carrying the matter through to a finish. The whole commercial world of debits and credits is built upon and maintained by the strength of signed legal paper. People who sign contracts without reading them, should swallow their losses in silent chagrin.
